ROMANA central heating

price list with effect from 22nd June 2010

black granite – towel rail optional

Made of high quality marble or high quality granite. These stunning radiators bring style to any interior, and can be positioned vertically or horizontally. This award winning sophisticated design incorporates the excellent heat-retention properties of natural stone. Thanks to the particular molecular make up of the stone, the warm air is radiated directly and evenly into the surroundings. The Romana provides heating that is not just low cost but also highly effective and environmentally friendly.

MARBLE – central heating radiators
